

30 4 Induction Zones Cooktop Professional Series

\$ 1,649

P304IAE

Bertazzoni rangetops and cooktops are superb cooking appliances designed, engineered and made in Italy. All Bertazzoni appliances integrate seamlessly into style-harmonized suites for a true, high-performing kitchen.

Bertazzoni touch-control induction cooktops represent the fastest and most energy-efficient way to cook. With total output of up to 11100 Watts and booster function, full power is available instantly and is delivered directly to the cookware, eliminating inconvenient heat-up time and wasted energy. The induction cooktops come with 4 or 5 individually-controlled extra-large heating zones on a beveled black glass main top. The lateral zones can be bridged to form a larger heating area. Cleaning is super-easy, just spray with glass cleaner and wipe the glass surface clean.

All Bertazzoni appliances are covered by a 2-year warranty. Products and packaging are 99% recyclable.
